bioRevival®

Feeling down? Vitamin D3, Basil, Catnip, Purslane, Sage, and Thyme are all well known to support mood balance when you want to sweep the clouds away on a gloomy day. Studies show that Vitamin D3 may enhance mood in healthy subjects during winter. BioRevival® has combined mood supporting herbs with D3 to make the perfect mood formula! Feel better with Mood D3.*

DIRECTIONS: As a dietary supplement, take two (2) capsules daily, or as directed by your healthcare provider. Do not exceed recommended dosage.

Mood D[®]

D3 + St. John's Wort
Promotes emotional well being*

DIETARY SUPPLEMENT 60 CAPSULES

Mood D[®] D3 + St. John's Wort

Several studies have been released suggesting that there is a link between hypovitaminosis D and some basic and executive cognitive dysfunction like SAD, depression and bi-polar disorders. And according to Current Psychiatry Reports Volume 11, Number 1, we quote: "Vitamin D activates receptors on neurons in regions implicated in the regulation of behavior, stimulates neurotrophin release, and protects the brain by buffering antioxidant and anti-inflammatory defenses against vascular injury and improving metabolic and cardiovascular function."

At BioRevival we want to expand the use of Vitamin D3 for mood health and add in some of our favorites to bolster the effect!

St. John's Wort is one of our favorite herbs for mood. St. John's Wort is one of the "doctrine of signatures" herbs. The plant looks like a yellow sun, sun spots and all. It grows in gloomy places! Purslane is one of our favorite sources of Omega 3 fatty acid. Basil is a common herb that has been used for thousands of years in cooking. Recently it has really come into it's own for mood support. Sage's latin name means "to heal". Sage is a tonic herb that has been recently been studied for brain health. Last, but not least, is Thyme. It has been used in Europe for 2000 years for relaxation and courage.

BioRevival has taken the best and made a formula that will help you feel great! We DO NOT use magnesium stearate in the production of our products!*
